BODY OF COLLINS IS TO BE LEFT IN CAVE

ALSO ACT AS COFFIN; RESCUE WORK STOPPED

Danger to Lives of Workers Results In Efforts Being Abandoned—Amputation to Effect Recovery Proved Impossible

Cave City, Feb. 17.—Rescue work plans to recover the body of Floyd Collins were definitely abandoned this afternoon, after it was determined that lives of workers would be endangered by further efforts. The threat of sudden death crept over the cave today as workmen fought against time and sagging rock in a last desperate effort to recover the body from the clutch of nature.

Efforts were made to burrow through a new side drift to Collin's feet, but the dangerous condition of the earth and rock halted plans shortly after the attempt was started. As a result the narrow cave that trapped Collins will also act as his coffin, as it had been previousy determined that amputation of his legs to free him, was impossible.

which spelt death to Floyd Collins later, accompanied by Dr. E. D. Turnprobably will shroud him forever. engineers consulted on whether the to perform the operation because of

COMMITTEE HAS REPORT AFTER 2 YEARS' STUDY

Legislation Ineffective In States Where Tried Says Chairman

Columbus, O., Feb. 17.-Recommendations rejecting proposed minimum wage legislation for Ohio are made by the special legislative committee which for two years has studied the problem, in a final report to be transmitted to the state legislature this afternoon by Representative Samuel I. Lipp, Cincinnati, chairman.

Minimum wage legislation in states where the acts are enforced 'has not brought about remedial results the report finds. Warning is given that such legislation along lines advocated by Ohio sponsors of this proposed legislation would be prejudicial to industry." The conclusions reached by the

committee are: 'The so-called mandatory minimum

wage legislation is unconstitutional and, therefore, should not be enacted by the general assembly. 'The non-mandatory law, similar to that which is in operation in Massa-

chusetts, is of little effect because its provisions cannot be properly enforced, the only weapon of enforcement being public opinion. "The minimum wage legislation in

other states has not brought about the remedial result which was sought and has not been enforced in several states, which enacted it.

employes in competition with those of other states if the minimum wage were fixed at a point above the

wages paid in other states. "There is no necessity for enacting minimum wage legislation for the state of Ohio because women employes of this state are receiving wages equal to those paid in states

where the law is in operation." The report was signed by five of the six members of the committee, including Chairman Lipp, Mrs. Nettie B. Loughead, state senator from New York, Feb. 17.—Self imposed a janitor, who, with his wife, were Hamilton County and former Senators Frank B. Burch, Akron, and Earl T. MARBLE BUILDINGS ACTUALLY GROW IS

buildings of the United States are

growing. This remarkable fact has been disclosed by a survey of thermal expansion of stone conducted by the United States Bureau of Standards.

"Marble, especially, shows pecul-

iarities in its behavior under temperature changes," the announcement "It expands on heating, but when cooled to the original temperature it does not shrink to its original di-

mensions; that is, it retains a part

"Specimens have been measured under low temperature and found to expand when cooled below normal, which, also, is contrary to the usual

conception.'

These queer characteristics of the action of stone, even under changes of heat caused by Summer and Winter, are held accountable for the pe-culiar instances of warping which are sometimes noted in marble headstone in cemeteries.

Bureau officials pointed out that thermal expansion of stone—that is, the amount stone changes in dimensions with changes in temperaturehas received too little attention from scientists and construction engineers of the United States

The assumption has been, it was said, that stone expands at a uniform rate in all intermediate temperatures, these deductions being based on a limited number of observations. The present data was termed misleading.

Determinations at the Bureau of Standards, at which frequent length measurements were made on limestone and marble specimens as the temperatures were raised indicated that these old assumptions are far from correct.

"For small increases in temperature above mormal the expansion is very small, but the rate increases rapidly as the temperature rises," of-

"At 10 degrees centigrade the average expansion of marble is about the same as that of steel but at 200 d grees the rate is approximately doubled, while for temperatures a few degrees above normal expansion is only a fractional part of that of

"These peculiarities are of particular interest and importance where stone is used in connection with other materials, as is usually structio.

The Company L basketball team will play the fast Dayton Forester five Thursday night at the Home

The visitors are reputed to have a number of stars in their lineup and fans going to the Home Thursday will be prepared to witness a teal game of basketball as the Dayton five has amassed a fine court record this season.

The military boys have been traveling at a fast clip also and will furnish p'enty of oppostion.

The game will start promptly at 8 o'clock and since no admission fee will be charged, a good crowd is expected.

Your Income Tax

Amounts paid or accrued within no legal obligation on the part of the the year as interest on indebtedness payer can not be deducted. In such are deductible, with certain excep- case, the payment amounts to a loan

tions, from gross income in determin- or gift. ing net income. Such items include interest or money borrowed to defray personal expenses-clothing, food, etc.-and also money borrowedfor the purchase of real estate. If a person owes money secured by a lien or mortgage on his home, the amount

may be deducted. Moreover, interest paid by the taxpayer on a mortgage upon real estate of which he is the legal or equitable owner, even though the taxpayer is not directly liable upon the bond or note secured, may be deducted as interest upon his indebtedness. For example, the owner of a house and lot borrows money from a bank, giving his note or bond and a mortgage. He then sells the property subject to the mortgage. The purchaser does not agree with the bank to pay the mortgage, but does pay the interest. If it were necessary to foreclose on the mortgage, and the proceeds of the sale of the property were not sufficient to cover the amount of the note or bond, the bank could not sue the purchaser but would have to look to

Indebtedness need not be evidenced by a lien, judgment, or mortgage to make the interest thereon deductible. Frequently indebtedness is evidenced only by note without additional securities.

A taxpayer may borrow money from an insurance company in which he is insured. Even where the money is used to pay the premium due upon the policy, the interest paid thereon may be deducted as personal indebtedness. Interest paid on behalf

BIBLE THOUGHT FOR TODAY

Serve the Lord with gladness: come before his presence with dinging. For the Lord is good; his mercy is everlasting; and his truth endureth to all generations.—Psalm 100:2,5.

SAFETY WEEK EVERY WEEK

CRADE crossing fatalities between June 1 and October 1 of last year were substantially reduced, according to a recent report of the Interstate Commission, as compared with the same months of 1923, despite the fact that the number of automobiles used in this country had increased approximately 20 percent. The American Railway Association says it was due to the safety campaign conducted by the railroads and the publicity given it. Another reminder that a safety campaign invariably pays. Let a community declare a no-accident week and set itself for carefulness, and the casualties of that week are cut down compared with those of an ordinary seven-day period. What the public must bring itself to doing is to follow the example set by the properly managed industrial establishments and make every week a safety week.

From June 1 to October 1 in 1923 there were 869 fatalities and injuries to 2,173 more persons at railroad grade crossings. In the same period in 1924 the grade crossing fatalities were 738 and the non-fatal injuries 2,-191, a reduction of 131 in the number of deaths and a drop of 113 in the total number of such casualties. Even so, there was obviously a serious continuation of heedlesness at the grade crossings in the 1924 period under observation. Many continued to start across the tracks without stopping, looking and listening.

There is only one thing to do and that is to keep up the safety campaign constantly.

CHARGED WITH A GREAT TRUST

AS THE utterance of the spokesman-in-chief for the average faith and conscience of the American people, President Coolidge's recent speech before the delegates to the Foreign Missions convention in Washington, was conspiciously sermonic. In fact, in the role of preacher, Mr. Coolidge rather surpasses than falls short of the best pulpit standards.

For the unemotional expression of truths of high emotional potentiality President Coolidge is rapidly taking first rank among public speakers of world prominence. Nothing could have been in better taste, more modestly spoken, less intentionally challenging, than his foreign missions address. On the other hand, no utterance on religion from such a high source in recent times has been so intimately challenging, so broadly liberal and so charged with evangelistic earnestness.

For one thing, the President conceives of Christianity a: "a highly practical as well as a profoundly spiritual mode of life." He speaks of a world brotherhood as a thing already accomplished and operative instead of a vague dream of an impractical idealism. In a thousand ways the missionary effort has been linked with education, science, the mechanic arts, and civilization has swept on to "improve the estate of man."

Nobody has said with more persuasive force the simple thing that the Christian nations as a whole are entitled to say, viz., "The Christian nations have become, in an intensely practical as well as a highly spiritual sense, charged with a great trust for civilization."

Appealing for a tolerant and sympathetic point of view in dealing with the peoples of alien nations and races, the President declared "our liberalism needs to be generous enough to recognize that missionary effort will often build better on foundations already laid than by attempting to substitute a complete new structure of morality, of life and of ethics." And there was a fine reserve and common sense in his closing admonition: "We have not all the wisdom that has been diffused among the sons of men. But we have been greatly favored and have much wherewith to aid those less richly endowed. A becoming modesty, a discriminating sense of our real opportunities and responsibilities, are altogether to be desired as helps in the great work we wish to do."

Today's Talks

LITTLE BIRDS

my libary by Viscount Grey, the great Englishman, called "Recreation." In it he tells of his walks through the woods with President Roosevelt and how they studied the birds and their calls.

Grey is an authority on birds. Ornithology is one of his hobbies. He in you, make it as sweet as you says that the spotted fly catcher's know how and put all that you are song is so small that people think it into it. has no song at all. Yet if you will watch it from its perch in the tree you will see it going through the motions and evidently very happy and pleased with its "small, sweet

Which reminds me wat it isn't how loud you sing but that you actually sing at all that counts.

Song is a form of self-expression; and no matter how small you may be if you express all of which you are capable, you have given much to the world.

Many of us are just little birds singing our small songs, almost in silence, yet nevertheles, continually sweetening our own lives and making them more fit for companionship and service.

On my home grounds are many trees. When spring pokes out its head I think of my ittle wren friends who come back year after year and start their cheerful, tiny concerts under my bedroom and library windows. All winter long I think of them and wonder where they are as the white blanket of snow glistens under the golden sun-

I love the small birds. I have little affection for the big black crows that call in such strident tones from the dead branches of the taller trees.

The little bird tots are so dainty I have a wonderful little book in and so delicate. And their soften tones mellow the air as they flit here and there, build their nests feed their tiny brood and then turn

them into the big world. It's what you do with what you have that puts meaning into action. If you only have a single song with-

CINCINNATI, O.

worn-out, or run-down, follow this advice; and watch results.

It is not what you eat or how much you eat but insufficient gland action (due to advancing years, overwork, sickness, or worry) that makes you flabby, bony, and scrawny looking. Worn out, dried up glands make it impossible to form flesh and strength. Yet many people who eat less have good firm flesh, normal weight, and are full of life and energy because their glands are now working full force. Formerly the recognized power of fresh or enic glands to put on flesh that stays firm, and makes nervous, anaemic folks strong and even tempered, was confined to rich people. But now everyone who has tried doctoring with ordinary tonics and medicines can purchase a com-

Eminent European specialist, Dr. bination of pure organic glands, Ciaramelli, says, "If underweight, phosphates (for the NERVES) and iron (for the blood) for a few cents at any drug store merely asking for Kath. This Kath is known to rebuild exhausted glands without the use of drugs. Make This Test:

First weigh and measure yourself. Next take the small tablets of glands, roots and herbs (as found in Kath). Then weigh and measure yourself every 5 days and continue taking Kath until you are satisfied with your gain in weight and energy. The scientist who has discovered Kath has agreed to supply it with the understanding that if you are not completely satisfied with results the entire purchase price wil be refunded by the druggist from whom you buy

WILBERFORCE WINS SECOND TIME FROM MOOREHOUSE FIVE

By L. J. Wones. For the second time this season Wilberforce University basketball team defeated the Moorehouse College five of Atlanta, Ga., Monday night at Wilberforce gym by a 45 to 14 score.

The visitors were completly outclassed and outplayed at all street of the contest. They had considerable trouble in breaking through Wilberforce's defense and therefore had to resert to long shots.

Wilberforce showed to best form to date. Ward, Redden and Slater did the bulk of the scoring for the winners. Ward counted six times from the field and three from the foul line for a total of fifteen points, Redden and Slater made four apiece from the field while Harding played at guard and dropped in two from the field and the same number from the charity line.

Each player on the Moorehouse team scored a field goal. Traylor, center and captain, was high man with a pair of tallies from the field. The games was fast in sports and cleanly played.

Hints Father of Physical Culture

The large number of rejection for military service on account of "flatfoot" has called the attention of the medical authorities to the alarming prevalence of this defect among the civilian population of this country. Many thousands of men, otherwise in good health and suitable material for soldiers, have been rejected for this reason alone, and if this is the case with our young men, we may assume that the condition is even more prevalent among the mass of the popu-

"Flat foot" simply means that the arch of the foot, which is normally curved or bow-shapped, has fallen somewhat, so as to render the inner edge of the sole more or less flat. It is an extremely painful condition, and besides being a bar to military service, is a serious handicap to anyone who suffers from it.

The structure of the foot is highly complicated. There are a number of small bones which articulate one with another and are held in place by ligaments and the muscular covering. When the ligaments are strong and in a healthy condition, they hold up the arch of the foot. When, on the other hand, they become relaxed through constitutional weakness, improper footgear, lack of exercise, wrong methods of standing and walking, excessive weight of the body, etc., they can no longer hold the bones in place. They become like pieces of elastic, which have been stretched so long that they have lost their elasticity, and no longer contract or function as they should. When this state has been reached, the arch begins to fall, and, if it is not checked, flat foot ultimately results. The condition takes some time to develop being usually noted during the mature or later years of life. When it appears early in life it is generally the result of anatomical con-

formations of an unusual nature. When flat foot occurs as a result of the last named factor it is often difficult to cure, and may require a surgical operation for its correction; but when it is an acquired condition it can almost invariably be cured by proper exercise and footgear, or at least greatly benefited, and if suitable measures are taken to prevent its recurrence it will stay cured.

Do You Believe

The Holland System for Good Health

After cleaning air, and warming it to the desired temperature, and moistening it properly, the Holland Heating System circulates it, besides—circulates it all through the house. And as the air is humidified. the ashes are dampened to eliminate dust, and the fuel steamed to get the maximum heating efficiency.

Do you know of any other heating system, AT ANY PRICE, that does all of that? Is it any wonder that hundreds of thousands of people are repeating so frequently that "Holland Furnaces Make Warm Friends"? And the average heating system costs much more than the Holland.

Why pay an unnecessarily high price for a heating plant? Why waste fuel and then not have enough warmth? And why breathe dry, stale air when circulated air, properly moistened, actually costs less?

The New Holland Humidifier

The Holland Heating System is equipped now with an air-moistener that is not only highly efficient, but is so extremely simple that it positively can not get out of order.

Everyone who has had the experience of going to California in February or March knows how it feels to leave bad weather and the train's stuffiness on the eastern side of the mountains, and glide down into the delightful atmosphere of the valleys where the air is balmy and fresh and inviting and so marvelously cheerful, that you just take big, deep breaths and smile even when you're all by yourself, just for the very joy of living.

It is much this same feeling that you have, now, when you step into a Holland-heated home. Recommended By Doctors

The Holland Health Heating System is highly recommended by physicians. Ask your own doctor. You and the family can and do catch colds and sore throats because of dry, stale air. So why not think seriously about such an important matter right away?

The Holland is sold on the easy payment plan, if you prefer, or there is a fair discount for cash.

You will enjoy the call of a Holland with cold air representative. He is a gentleman ment and one who knows his business.

WORK PRELIMINARY TO FAIRFIELD PIKE PAVING IS ORDERED

Surveying and engineering work on the Fairfield Pike from Old Town to the Yellow Springs-Dayton Pike, a distance of slightly more than three miles, has been ordered to proceed immediately, Greene County Commissioners declared Tuesday.

Authorization to begin preliminary work at once, with a view to remodeling the road, was received Monday from the division highway engineer at Columbus, commissioners said.

Favorable action on the project was given the petition carried to state department by commissioners at the recent state meeting of county which he was connected at the commissioners asking that remodeling work be given state sanction and

It has not been learned what type of pike will be laid but it is thought that the choice lies between cement or macadam. The road will be made into a hard surface pike since it hs been declared an inter-county high

Cincinnati Pike is abandoned, federal aid of \$72,000 will be lost to the county, it is said, since the Fairfield Pike is not a federal road.

on one bad loan.

loss

Bankers must be right about 99 times out of every 100 just to split

If a bank lends \$100 to 100 different people at 6 percent, it would theorectically, get back \$106 from each person at the end of the year. The actual net profit on each loan, after deducting expenses would, hewever, be about \$1. It might run as high as \$2, but \$1 is a reasonable

Thus, on the hundred transactions, the bank would make an aggregate

Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets-the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olivecolored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 30c.

"Not Possible To Classify"

"Not Possible To Classify"

Last Saturday being St. Valentine's Day, a few Valentine verses will not be out of place today. So with your kind permission we will render a few lines to a couple of girls over in Dayton:

NICE DAY, ISN'T IT!

Rose's are red; Violet's are blue, I never used apostrophies before, did you? But really I find they're mighty fine When referring to the girls' clothesline.

The next verse is dedicated to the elevator man over at the Gibson Hotel, Dayton:

> Harding was great Lincoln was greater; I'm climbing the heights On your elevator.

To the dentist, I pen the next few lines: Honey is sweet, Flue makes me wheezy;

My laundryman didn't exactly please me with his last work, so this little morsel of sweetness is meant for him:-

But a dentist's drill

Makes me uneasy.

NO GET PAY!

You no get clean My shirt and collar, So I no pay A half a dollar.

Surely the Salvation Army Captain must not be forgotten. Some roses to the living, don't you know. How would something like this

THE SALVATION ARMY CAPTAIN

To your brothers' needs you're always alert To a fallen friend you'd give your shirt; Religion, nor color, nor race offends, If rich or poor, all are your friends. And then, last but as important as any ,comes one dedicated to a friend of all. It goes:

NEVER FAILS!

Sometimes you rest. Sometimes you shirk, But a Gazette ad All day does work.

MODISH MITZI—Suit The Climate to the Clothes

Here is another. Made, like the other, of heavy ribbed silk (they are ottoman, faille or bengalinesome even of very heavy satin). "It's simply criminal," wails Mitzi. "Why even if I bought one I couldn't wear it for ages." Some are trimmed with braid, some with fur.

However, Mitzi wasn't consulted in the matter. Silks and satins are going to be used for tailored garments -suits, wraps and dresses-in spite of arything she can do about it. Not that she wants to do anything, except to advance the calendar two

ever. Here we see her consulting a very helpful gentleman at a ticket window. She is asking him what places he recommends as backgrounds for an exceptionally smart ensemble suit of heavy ribbed silk with a dress of embroidered crepal

Mitzi gazes wistfully into all the shop windows. They are showing wraps and ensemble suits and dresses for spring. Surely that is no reason for Mitzi to look sad? No, but they are all made of silk and even Mitzi could not contemplate wearing them at this cold time of year.

JURY WILL TRY MAN FOR DRIVING AUTO WHILE INTOXICATED

The trial of Harley Ireland, Jamestown on a charge of operating a ve hicle while intoxicated will be held in Pobate Court, Thursday, January 26, before a jury of three women and

Ireland pleaded not guilty to the charge when brought into Probate Court Saturday. He was released on the same bond put up in the mayor's court in Jamestown where he had previously been arraigned, and bound over to the local court.

The charge grows out of an auto smashup four weeks ag in the business section of Jamestown, when Ireland's car is alleged to have smashed into a Buick coupe owned and driven by Mrs. Lena Martindale of James.

His car was badly smashed and the car in which Mrs. Martindale was riding was also badly damaged but the occupant escaped with only minor injuries.

The personnel of the jury drawn Monday: Brant Bell, Xenia; John Perry, Silvercreek Twp.; E. R. Latham, Silvercreek Twp; Karl Kellar, Xenia; Ida K. Finley, Xenia; James Barlow, Cedarville Twp.; Edith Xenia; Julia Schweibold, Xenia; Earle Spahr, Xenia; Frank McCurran, Xenia.

EAGLES WILL OPEN WEEK OF FUN WITH HOME DEDICATION

The dedication of the new home of Xenia Aerie, Fraternal Order of Eagles, February 21, will also mark the opening of the Eagles' Fun Fest and Circus, which is scheduled for

Funds derived from the circus will be placed in the building fund. The committee in charge of arrangements for the week of fun is promising big surprises in the way of vaudeville and circus acts, high class performers having been booked to entertain

Xenia crowds that week. The committee was fortunate in booking some of the best tent show and footlight talent for the performances. In order to popularize the affair, two diamond rings and a radio set will be given away by the Aerie during the week.

The hall will be elaborately decorated and entertainment for old and young will be provided in the variety of amusements scheduled. The admission will be ten cents at the door. It will be the first formal occasion when the new home of the lodge will be thrown open to public inspection.

POLICE COURT THREE SPEEDERS FINED

F. H. Moler, and Albert Whitlow of Dayton, and F. H. Schweibold, Xenia, arrested Sunday afternoon by Motorcycle Policeman Peter Shagin on charges of speeding were each fined \$5 and costs by Municipal Judge E. D. Smith.

Why A Woman's Age Shows In Her Hand

A noted beauty specialist recently said that she could invariably judge a woman's age by her hands. Worry and hard work of en shows in the hands when it does not show in the and hard work often shows in the hands when it does not show in the face, and as a rule women give more attention to their face than to their hands. The hands however, should not be neglected because pretty, sort, white hands are really the true marks of refinement, and they should be cared for. Any woman can have beautiful, white, soft, pretty hands, regardless of the work she has to do, if she will simply spend a minute or two just before retiring, rubbing a little plain loe-Mint one them. In the morning she will be greatly surprised at the pleasant transformation that has been wrought by even a single application loe-mint is made from a Jananese product that is simply marvelous for its beautifying properties whether weed on the hands on for Percentless. product that is simply marvelous for its beautifying properties whether used on the hands or face. Regardless of what kind of work a woman does she should have pretty hands. As the hands, if neglected are bound to show the hard work and worry of our lives. A few applications of Ice-mint will actually make any woman proud of her hands and skin. It costs little and is sold and recommended by good druggists everycommended by good druggists every

The Critical Period

Of A Woman's Life Is Helped With Dr. Bowen's Prescription For Hot Flashes

The period of a woman's life between 40 and 50 years is generally called the critical period

Laws of nature cause certain changes during this period which must not be interfered with. They are forts such as Hot Flashes. Debility, how was the such as Hot Flashes. Palpitation of the heart, and general nervous derangement.

These discomforts, need no longer be suffered. Dr. Bowen's Prescription has been used by one of the most successful practicing physicians of today for over 30 years with remarkable results and on urgent appeals from his grateful patients he has now consented to place this boon within reach

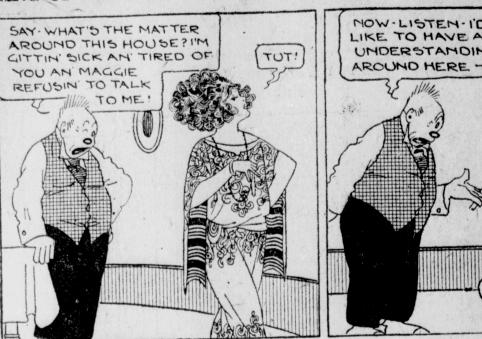

of every suffering woman. It is guaranteed to control these symptoms and be abolutely harmless. At your druggist or send \$1.25 for trial package of Dr. Bowen's Prascription.

Lagonda Laboratories Company. Springfield, Ohio

RHEUMATISM

Why use mere tempory surface rubs, lumbago, sciatica, etc., when a famous old Duich internal remedy, long known to physicians and now put up in easy-to-take, task-sless capsules. roes direct to the internal cause in joints and muscles and removes it?
You'll be astonished how quickly every miserable, painful symptom vanishes. Ask for Red Mill Haarlem Oil. Costs only 100 and results postitively guaranteed or money back. Sold by Sayre and Hemphill and Saha, Drois Store Sohn's Drug Store

BODY OF COLLINS IS TO BE LEFT IN CAVE

NARROW PRISON ALSO ACT AS COFFIN; RESCUE WORK STOPPED

Danger to Lives of Workers Results In Efforts Being Abandoned—Amputation to Effect Recovery Proved Impossible

Cave City, Feb. 17.—Rescue work plans to recover the body of Floyd Collins were definitely abandoned this afternoon, after it was determined that lives of workers would be endangered by further efforts. The threat of sudden death crept over the cave today as workmen fought against time and sagging rock in a last desperate effort to recover the body from the clutch of nature.

Efforts were made to burrow through a new side drift to Collin's feet, but the dangerous condition of the earth and rock halted plans shortly after the attempt was started. As a result the narrow cave that trapped Collins will also act as his coffin, as it had been previousy determined that amputation of his legs to free him, was impossible.

which spelt death to Floyd Collins later, accompanied by Dr. E. D. Turnprobably will shroud him forever.

WASHINGTON THE GENTLEMAN.

George Washington has been carved scores of times as a General and as President, but it has remained for Pompeo Coppini, New York sculptor, to complete a ten-foot bronze of the President as Washington the Gentleman." The statue will be dedicated in Ports land, Ore., on February 22, 1926, as the gift of Dr. Henry Waldo Coe, of that city.

BOTH SIDES ON AIRCRAFT WAR **ACTIVE AGAIN**

Mitchell Defends His Policy While Probers Hear Evidence

Washington, Feb. 17-Before two different congressional committees, the "big guns" on both sides of the present aircraft controversy swung into action again today.

While Brig. General Mitchell, whose grave charges against the nation's air defenses, gave the impetus to the present hearings, defended his policy of a unified air force before the house military affairs committee, representatives of the war and navy departments told the special aircraft investigating committee what preparations have been made to defend this nation against an air attack.

Mitchell's appearance marked his fourth visit to Capitol Hill in about two weeks, on each of which he has criticized with the utmost frankness the army and navy air services.

Present before the same committee today was former Assistant of the Navy Theodore Roosevelt of New head, such as the "flying general"

COMMITTEE HAS 2 YEARS' STUDY

Legislation Ineffective In States Where Tried Says Chairman

Columbus, O., Feb. 17 .- Recommendations rejecting proposed minimum wage legislation for Ohio are made by the special legislative committee which for two years has studied the problem, in a final report to be transmitted to the state legislature this afternoon by Representative Samuel I. Lipp, Cincinnati, chairman.

Minimum wage legislation in states where the acts are enforced 'has not brought about remedial sought," the report finds. Warning is given that such legislation along lines advocated by Ohio sponsors of this proposed legislation would be prejudicial to industry.

The conclusions reached by the committee are:

The so-called mandatory minimum wage legislation is unconstitutional and, therefore, should not be enacted by the general assembly. The non-mandatory law, similar to

that which is in operation in Massachusetts, is of little effect because its provisions cannot be properly enforced, the only weapon of enforcement being public opinion. "The minimum wage legislation in

other states has not brought about the remedial result which was sought and has not been enforced in several states, which enacted it.

'Such legislation would have a serious effect upon Ohio's industries and employes in competition with those of other states if the minimum wage were fixed at a point above the wages paid in other states.

"There is no necessity for enacting minimum wage legislation for the state of Ohio because women employes of this state are receiving wages equal to those paid in states

where the law, is in operation.' The report was signed by five of the six members of the committee, including Chairman Lipp, Mrs. Nettie B. Loughead, state senator from New York, Feb. 17.—Self imposed a janitor, who, with his wife, were Hamilton County and former Senators Frank B. Burch, Akron, and Earl T. Ferguson, Van Wert, and by Mrs. Nettie Clapp, state representative

> Former Representative W. T. Roberts, Bellaire, labor members, in a prevented him from attending the report be sent him so that, if he wished, he could file a minority report.

> The committee began its labors February 6, 1923, and devoted most of its inquiry to a study of the minimum wage acts of Massachusetts. Wisconsin and California.

> The committee, fn its report, said it believed the people of the state would "bitterly resent" the setting up of another bureau and revealed that opponents of the proposal estimated the yearly cost to taxpayers would be \$350,000.

> "Conditions of women workers in Ohio are equal to, or better than in states having what is purported to be effective minimum wage legislation," and "That there is no relation between

morality and wages.'

MARBLE BUILDINGS ACTUALLY GROW IS FOUND BY BUREAU

Washington, Fab. 16 - Marble buildings of the United States are growing. This remarkable fact has been dis-

closed by a survey of thermal expansion of stone conducted by the United States Bureau of Standards. "Marble, especially, shows peculiarities in its behavior under temperature changes," the announcement

"It expands on heating, but when cooled to the original temperature it does not shrink to its original dimensions; that is, it retains a part of the expansion as a permanent growth.

"Specimens have been measured under low temperature and found to expand when cooled below normal. which, also, is contrary to the usual conception. These queer characteristics of the

action of stone, even under changes of heat caused by Summer and Winter, are held accountable for the peculiar instances of warping which are sometimes noted in marble headstone in cemeteries. Bureau officials pointed out that

thermal expansion of stone-that is, the amount stone changes in dimensions with changes in temperaturehas received too little attention from scientists and construction engineers of the United States. The assumption has been, it was

said, that stone expands at a uniform rate in all intermediate temperatures, these deductions being based on a limited number of observations. The present data was termed misleading.

Determinations at the Bureau of Standards, at which frequent length measurements were made on limestone and marble specimens as the temperatures were raised indicated that these old assumptions are far from correct. "For small increases in tempera

ture above normal the expansion is very small, but the rate increases rapidly as the temperature rises," of

"At 10 degrees centigrade the average expansion of marble is about the same as that of steel but at 200 d grees the rate is approximately doubled, while for temperatures a few degrees above normal expansion is only a fractional part of that of

'These peculiarities are of particular interest and importance where stone is used in connection with other materials, as is usually the case in modern building constructio.

BIBLE THOUGHT FOR TODAY

Serve the Lord with gladness: come before his presence with singing. For the Lord is good; his mercy is everlasting; and his truth endureth to all generations.—Psalm 100:2,5.

SAFETY WEEK EVERY WEEK

CRADE crossing fatalities between June 1 and October 1 of last year were substantially reduced, according to a recent report of the Interstate Commission, as compared with the same months of 1923, despite the fact that the number of automobiles used in this country had increased approximately 20 percent. The American Railway Association says it was due to the safety campaign conducted by the railroads and the publicity given it. Another reminder that a safety campaign invariably pays. Let a community declare a no-accident week and set itself for carefulness, and the casualties of that week are cut down compared with those of an ordinary seven-day period. What the public must bring itself to doing is to follow the example set by the properly managed industrial establishments and make every week a safety week.

From June 1 to October 1 in 1923 there were 869 fatalities and injuries to 2,173 more persons at railroad grade crossings. In the same period in 1924 the grade crossing fatalities were 738 and the non-fatal injuries 2,-191, a reduction of 131 in the number of deaths and a drop of 113 in the total number of such casualties. Even so, there was obviously a serious continuation of heedlesness at the grade crossings in the 1924 period under observation. Many continued to start across the tracks without stopping, looking and listening.

There is only one thing to do and that is to keep up the safety campaign constantly.

CHARGED WITH A GREAT TRUST

AS THE utterance of the spokesman-in-chief for the average faith and conscience of the American people, President Coolidge's recent speech before the delegates to the Foreign Missions convention in Washington, was conspiciously sermonic. In fact, in the role of preacher, Mr. Coolidge rather surpasses than falls short of the best pulpit standards.

For the unemotional expression of truths of high emotional potentiality President Coolidge is rapidly taking first rank among public speakers of world prominence. Nothing could have been in better taste, more modestly spoken, less intentionally challenging, than his foreign missions address. On the other hand, no utterance on religion from such a high source in recent times has been so intimately challenging, so broadly liberal and so charged with evangelistic earnestness.

For one thing, the President conceives of Christianity a: "a highly practical as well as a profoundly spiritual mode of life." He speaks of a world brotherhood as a thing already accomplished and operative instead of a vague dream of an impractical idealism. In a thousand ways the missionary effort has been linked with education, science, the mechanic arts, and civilization has swept on to "improve the estate of man."

Nobody has said with more persuasive force the simple thing that the Christian nations as a whole are entitled to say, viz., "The Christian nations have become, in an intensely practical as well as a highly spiritual sense, charged with a great trust for civilization."

Appealing for a tolerant and sympathetic point of view in dealing with the peoples of alien nations and races, the President declared "our liberalism needs to be generous enough to recognize that missionary effort will often build better on foundations already laid than by attempting to substitute a complete new structure of morality, of life and of ethics." And there was a fine reserve and common sense in his closing admonition: "We have not all the wisdom that has been diffused among the sons of men. But we have been greatly favored and have much wherewith to aid those less richly endowed. A becoming modesty, a discriminating sense of our real opportunities and responsibilities, are altogether to be desired as helps in the great work we wish to do."

Bride: "My husband's mother has kindly given us a carpet which is rather faded but still good. Can you cinnamon. Fold it over and again tell me how to freshen its appear-

Answer: Colors in rugs and carpets may be freshened in three ways: 1 Sponge with a mixture of one part ox gall to two parts water. 2. Sponge with one quart of water containing one teaspoon of household ammonia. 3. Sponge with ordinary salt and water. If you can decide upon th eammonia solution you should experiment on a small corner of the carpet before going ahead with the entire surface, for certain colors are affected by ammonia water and may fade even more, in which case the original color may be restored by sponging with vinegar and water mixed half in half. Some housewives maintain that faded carpets can be rejuvenated by being brushed with a broom dipped in warm water which contains a little spirits of turpentine, but I have never tried this method personally.

Charlott: "My husband does not like fruit cake, but recently ate some Strudel and thought it fine. Can you give me a recipe for this?" Answer: I have two recipes for

Strudel, one "Apple Strudel" and the other a German cheese cake called Strudel, but they do not seem to be

CoughRemedyMother Gave Us Still Best

Pine Tar and Honey Beat All Modern Drugs

All Modern Drugs

In thousands of families it has been the custom for many years to keep pine tar and honey always on hand for coughs, chest colds, bronchitis, spasmodic croup, and throat irritations. Our mothers knew that it was good, that it often broke up the worst cough, in 24 hours, and that it could be given to young and cold alike, as it contains no narcotics or harmful drugs.

And now we are told that in spite of modern medical discoveries there is still no better or quicker cough remedy. Doctors say the pine tar quickly loosens and removes the phlegm and congestion that cause the coughing, also healing soreness, while the honey not only gives a pleasant taste, but helps soothe irritation.

The original compound, made up many years ago and used by millions of people, was Dr. Bell's Pine-Tar Honey. This is scientifically composed of just the right proportions of pine tar, honey and other quick-acting, healing ingredients which the best doctors have found to aid in quick relief. If ye-u want the original and the best, be sure you get Dr. Bell's Pine-Tar Honey and no other. Only 30c. at any good druggists.

behind it there's a plan, And the world will some day hail her as the mother of a man.

Today's Talks

my libary by Viscount Grey. the great Englishman, called "Recreation." In it he tells of his walks through the woods with President Roosevelt and how they studied the birds and their calls.

nithology is one of his hobbies. He in you, make it as sweet as you says that the spotted fly catcher's know how and put all that you are song is so small that people think it into it.
has no song at all. Yet if you will watch it from its perch in the tree you will see it going through the motions and evidently very happy and pleased with its "small, sweet

Which reminds me that it isn't how loud you sing but that you actually sing at all that counts. Song is a form of self-expression: and no matter how small you may be if you express all of which you

are capable, you have given much to the world. Many of us are just little birds singing our small songs, almost in silence, yet nevertheles, continually sweetening our own lives and making them more fit for com-

panionship and service. On my home grounds are many trees. When spring pokes out its head I think of my ittle wren friends who come back year after year and start their cheerful, tiny concerts under my bedroom and library windows. All winter long I think of them and wonder where they are as the white blanket of snow glistens under the golden sun-

I love the small birds. I have little affection for the big black crows that call in such strident tones from the dead branches of the taller trees.

The little bird tots are so dainty I have a wonderful little book in and so delicate. And their soften tones mellow the air as they flit here and there, build their nests feed their tiny brood and then turn them into the big world.

It's what you do with what you have that puts meaning into action. Grey is an authority on birds. Or- If you only have a single song with-

advice; and watch results.

It is not what you eat or how much you eat but insufficient gland action (due to advancing years, overwork, sickness, or worry) that makes you flabby, bony, and scrawny looking. Worn out, dried up glands make it impossible to form flesh and strength. Yet many people who eat less have good firm flesh, normal weight, and are full of life and energy because their lands are now working full force. Formerly the recognized power of fresh or enic glands to put on flesh that stays firm, and makes nervous, anaemic folks strong and even tempered, was confined to rich people. But now everyone who has tried doctoring with ordinary tonics and medicines can purchase a com-

Eminent European specialist, Dr. bination of pure organic glands, Ciaramelli, says, "If underweight, phosphates (for the NERVES) and worn-out, or run-down, follow this iron (for the blood) for a few center at any drug store merely asking for Kath. This Kath is known to rebuild exhausted glands without the use of drugs.

Make This Test:

First weigh and measure yourself. Next take the small tablets of glands, roots and herbs (as found in Kath). Then weigh and measure yourself every 5 days and continue taking Kath until you are satisfied with your gain in weight and energy. The scientist who has dis-covered Kath has agreed to supply it with the understanding that if you are not completely satisfied with results the entire purchase price will be refunded by the druggist from whom you buy :

SOHN'S DRUG STORE

WILBERFORCE WINS SECOND TIME FROM MOOREHOUSE FIVE

For the second time this season Wilberforce University basketball team defeated the Moorehouse College five of Atlanta, Ga., Monday night at Wilberforce gym by a 45

to 14 score. The visitors were completly outclassed and outplayed at all strong of the contest. They had considerable trouble in breaking through Wilberforce's defense and therefore had to resert to long shots.

Wilberforce showed to best form to date. Ward, Redden and Slater did the bulk of the scoring for the winners. Ward counted six times from the field and three from the foul line for a total of fifteen points, Redden and Slater made four apiece from the field while Harding played at guard and dropped in two from the field and the same number from the charity line.

Each player on the Moorehouse team scored a field goal. Traylor, center and captain, was high man with a pair of tallies from the field. The games was fast in sports and cleanly played.

His Entinence, Patrick Cardina Hayes, Archbishop of New York, is shown as he sailed on the lines Munargo for Nassau, Bahama Islands, for confirmations and vacation. The Bahamas are in his archdiocese,

Health Father of Physical Culture

The large number of rejection for military service on account of "flatfoot" has called the attention of the medical authorities to the alarming prevalence of this defect among the civilian population of this country. Many thousands of men, otherwise in good health and suitable material for soldiers, have been rejected for this reason alone, and if this is the case with our young men, we may assume that the condition is even more prevalent among the mass of the popu-

"Flat foot" simply means that the arch of the foot, which is normally curved or bow-shapped, has fallen somewhat, so as to render the inner edge of the sole more or less flat. It is an extremely painful condition, and besides being a bar to military service, is a serious handicap to anyone who suffers from it.

The structure of the foot is highly complicated. There are a number of small bones which articulate one with another and are held in place by ligaments and the muscular covering. When the ligaments are strong and in a healthy condition, they hold up the arch of the foot. When, on the other hand, they become relaxed through constitutional weakness, improper footgear, lack of exercise, wrong methods of standing and walking, excessive weight of the body, etc., they can no longer hold the bones in place. They be-come like pieces of elastic, which have been stretched so long that they have lost their elasticity, and no longer contract or function as they should. When this state has been reached, the arch begins to fall, and, if it is not checked, flat foot ultimately results. The condition takes some time to develop being usually noted during the mature or later years of life. When it appears early in life it is generally the result of anatomical con-

formations of an unusual nature. When flat foot occurs as a result of the last named factor it is often difficult to cure, and may require a surgical operation for its correction: but when it is an acquired condition it can almost invariably be cured by proper exercise and footgear, or at least greatly benefited, and if suitable measures are taken to prevent its recurrence it will stay cured.

Urges Annulment of Childless Marriages.

DR. A. S. PINTO.

Dr. A. S. Pinto, city health com-missioner of Omaha, Neb., has an-nounced his belief and is adher-

ing firmly to it, despite a storm of

protest that childless marriages

should be declared void after two

years Mrs Pinto is one of those

who takes issue with the Commis-

sioner She contends their mar-

riage would have been one of those

annulled had such regulations been

effective, for their first child was

bern mere than two years after they had been married.

OF OLD TOWN FIRE IS

tirely destroyed the stock feed plant

of the DeWine Milling Company ,at

Old Town, Monday, Fire Chief T. B.

Later Monday afternoon when the flames had abated sufficiently to al-

low firemen to approach the ruins

the safe of the company was extricated and found intact with the books,

papers and money. Nothing had been

Chief Claire declared that the poles

of the Ohio Bell Telephone Company

and the Dayton Power and Light Com-

pany across the pike had been saved and communication was not cut off

for more than a short length of time.

Both telephone lines and the electric

power line were immediately repair-

Traction service was impaired about

was cut to save the poles. The south-

e. The regu could not be resumed until 2 o'clock

The pike was strewn with burning

embers for a distance of thirty yards

near the mill preventing motor traffic

until the pike could be cleared of all

The entire loss was estimated at nearly \$50,000 by John DeWine, pres-

ident. Chief Claire declared Monday

that there was little left that could

Xenia Auto Necessity Go

31 South Detroit Street Opp. 5c and 10c Store

Do You Believe In Health-Enough? If so, Your whole family can have it, Always

The Holland System for Good Health

After cleaning air, and warming it to the desired temperature, and moistening it properly, the Holland Heating System circulates it, besides—circulates it all through the house. And as the air is humidified, the ashes are dampened to eliminate dust, and the fuel steamed to get the maximum heating efficiency. Do you know of any other heating system, AT ANY PRICE, that does all of that? Is it any wonder that hundreds of thousands of people are repeating so frequently that "Holland Furnaces Make Warm Friends"? And the average heating system costs much more

than the Holland. Why pay an unnecessarily high price for a heating plant? Why waste fuel and then not have enough wasmth? And why breathe dry, stale air when circulated air, properly moistened, actually costs less?

The New Holland Humidifier

The Holland Heating System is equipped now with an air-moistener that is not only highly efficient, but is so extremely simple that it positively can not get out of order.

Everyone who has had the experience of going to California in February or March knows how it feels to leave bad weather and the train's stuffiness on the eastern side of the mountains, and glide down into the delightful atmosphere of the valleys where the air is balmy and fresh and inviting and so marvelously cheerful, that you just take big, deep breaths and smile even when you're all by yourself, just for the very joy of living.

It is much this same feeling that you have, now, when you step into a Holland-heated home.

Recommended By Doctors

The Holland Health Heating System is highly recommended by physicians. Ask your own doctor. You and the family can and do catch colds and sore throats because of dry, stale air. So why not think seriously about such an important matter right away?

The Holland is sold on the easy payment plan, if you prefer, or there is a fair discount for cash.

You will enjoy the call of a Holland Mair representative. He is a gentleman nt. and one who knows his business.

WORK PRELIMINARY TO FAIRFIELD PIKE PAVING IS ORDERED

Surveying and engineering work on the Fairfield Pike from Old Town to the Yellow Springs-Dayton Pike, a distance of slightly more than three miles has been ordered to proceed immediately, Greene County Commissioners declared Tuesday.

Authorization to begin preliminary work at once, with a view to remodeling the road, was received Monday from the division highway engineer at Columbus, commissioners said.

Favorable action on the project state department by commissioners at the recent state meeting of county commissioners asking that remodeling work be given state sanction and

It has not been learned what type of pike will be laid but it is thought that the choice lies between cement or macadam. The road will be made into a hard surface pike since it hs been declared an inter-county high

If the proposed improvement of the Cincinnati Pike is abandoned, federal aid of \$72,000 will be lost to the county, it is said, since the Fairfield Pike is not a federal road.

MONEY AT WORK

Brief but Important Lessons in Finance, Markets, Stocks, Bonds and Investments

WHY BANKERS MUST BE CONSERVATIVE profits

on 100 loans

esol on one bad

Bankers must be right about 99 times out of every 100 just to split . . .

If a bank lends \$100 to ferent people at 6 percent, it would theorectically, get back \$106 from each person at the end of the year. The actual net profit on each loan, after deducting expenses would, hewever, be about \$1. It might run as

Thus, on the hundred transactions, the bank would make an aggregate

Thousands Have Discovered

Dr. Edwards' Olive Tablets are a Harmless Substitute Dr. Edwards' Olive Tablets-the sub-

laxative, and their effect on the liver is almost instantaneous. These little olivecolored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good

that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 30c.

profit of \$100. If just one person fails | Company. He was associated with to pay, the bank "splits even." If the Hooven and Allison Company, more than one person fails to pay,

the bank loses. It is for this reason that banks and bankers must be right about 99 iting relatives in this city and will times out of 100-or else they fail to make anything. Taking this into consideration, is it any wonder that good banks are conservative?

LEIGH M. NISBET

Leigh M. Nisbet, formerly of this city, recently of Kansas City, Mo., was given the petition carried to has resigned his position with the Hooven and Allison Company with which he was connected at the branch factory to accept the position of assistant scout executive of the Boy Scouts of America, in Toledo. O. He will take charge of his new

work the first of next week. Mr. Nisbet has had a wide range of experience in Boy Scout work in this city and was deputy commissioner of both Xenia troops for several years. He will have supervision of about 2,000 Boy Scouts in the Toledo troops. He has been in Boy Scout

work for nine years. Mr. Nisbet has been employed in the sales office of the Kansas City district of the Hooven and Allison

"Not Possible To Classify"

"Not Possible To Classify"

Last Saturday being St. Valentine's Day, a few Valentine verses will not be out of place today. So with your kind permission we will. render a few lines to a couple of girls over in Dayton:

NICE DAY, ISN'T IT!

Rose's are red; Violet's are blue, I never used apostrophies before, did you? But really I find they're mighty fine When referring to the girls' clothesline.

The next verse is dedicated to the elevator man over at the Gibson Hotel, Dayton:

> Harding was great Lincoln was greater: I'm climbing the heights On your elevator.

To the dentist, I pen the next few lines: Honey is sweet, Flue makes me wheezy; But a dentist's drill Makes me uneasy.

My laundryman didn't exactly please me with his last work, so this little morsel of sweetness is meant for him:-

NO GET PAY!

You no get clean My shirt and collar, So I no pay A half a dollar.

Surely the Salvation Army Captain must not be forgotten Some roses to the living, don't you know. How would something like this

THE SALVATION ARMY CAPTAIN

To your brothers' needs you're always alert To a fallen friend you'd give your shirt; Religion, nor color, nor race offends, If rich or poor, all are your friends. And then, last but as important as any ,comes one dedicated to a friend of all. It goes:

NEVER FAILS!

Sometimes you rest. Sometimes you shirk, But a Gazette ad All day does work.

GUARD COMPANY TO BE INSPECTED SOON

The annual federal inspection of Company L, 147th Infantry, will be held Monday evening, March 2, at 7 o'clock, it is announced.

All leaves of absence have been revoked for that night, according to Captain Leroy V. John, and every man will be present and in uniform at the inspection, not later than 7 o'clock that date.

Notifications of the inspection were sent out by Captain John to every member of the company and only the most unavoidable circumstances will be accepted as excuses for absences, he declared.

Junior Cross Word Puzzle

HOW TO SOLVE PUZZLE The words start in the numbered squares and run either across of down. Only one letter is placed in each white square ... If the proper words are found each combination of letters in the white squares will form words. The key to the puzzle-the first word—is given in the drawing. Below are keys to the other words.

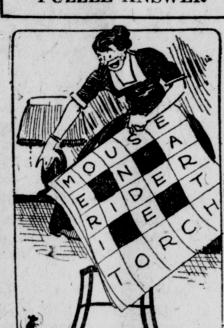

RUNNING ACROSS Word 1. In the picture. 4. Your first grade reading Word

book. Word 5. A slanting cover to keep off the sun. RUNNING DOWN

Word 2. A weapon used by the Indians. Word 3. A large body of water.

The moment "Pape's Diapepsin" reaches the stomach all distress goes. Lumps of indigestion, gases heartburn, sourness, fullness, flatulence, palpitation vanish. Ease your stomach now! Correct-

digestion and acidity for a few cents. Druggists sell millions of packages.

CROSS-WORD PUZZLE

SUGGESTIONS FOR SOLVING CROSS-WORD PUZZLES

VERTICAL

Start out by filling in the words of which you feel reasonably sure. These will give you a clue to other words crossing them, and they in turn to still others. A letter belongs in each white space, words starting at the numbered squares and running either horizontally or vertically or both.

2-Girl's name 3-Cut off 4-A country of S. W. Asia (abbr.) 5-Fix 14-Part of the verb "to be" 6-Market 7-Man's name (familiar) 8-Pester

1-A parcel

17-Motor fuel 18-Division of a book 9-Period of time 20-Man's name, shortened 10-To agitate again 13-Ravine 22-Jumbled type 23-Large woody plant 18-Wrinkled 19-Complains 25-Thrusting sword 27-Girl's name 21-Comlo

22-Looks attentively 24-Period of time 26-Man's name 29-A burnt out coal 30-Pet 32-Beast of burden

37-Hotel 39-Anger 40-Father 42-To the rear 43-Title

46-You

45-River in Italy

36--Cleanser

SAFE FOR CHILDREN

45-A pretty spring flower

48-A kind of grass

49-A sentinel

47-An expression of disapproval

HORIZONTAL

1-A support

6-Method

12-Royal

28-Anger

34-Thus

41-A unit

44-Period

42-Request

35-Longs for

29-Grasps firmly

31-The spikenard

38-Accomplished

33-Prefix, form of "in"

11-Confusion

15-Head covering

16-Equality of value

By Jay V. Jay

Mitzi gazes wistfully into all the shop windows. They are showing wraps and ensemble suits and dresses for spring. Surely that is no reason for Mitzi to look sad? No, but they are all made of silk and even Mitzi could not contemplate wearing them at this cold time of year.

Here is another. Made, like the other, of heavy ribbed silk (they are ottoman, faille or bengalinesome even of very heavy satin). "It's simply criminal," wails Mitzi. "Why even if I bought one I couldn't wear it for ages." Some are trimmed with braid, some with fur.

However, Mitzi wasn't consulted in the matter. Silks and satins are going to be used for tailored garments -suits, wraps and dresses-in spite of arything she can do about it. Not that she wants to do anything, except to advance the calendar two

(A) Mitzi has solved the problem, however. Here we see her consulting a very helpful gentleman at a ticket window. She is asking him what places he recommends as back-

grounds for an exceptionally smart ensemble suit of heavy ribbed silk with a dress of embroidered crepal

JURY WILL TRY MAN FOR DRIVING AUTO WHILE INTOXICATED

The trial of Harley Ireland, Jamestown on a charge of operating a vehicle while intoxicated will be held in Pobate Court, Thursday, January 26, before a jury of three women and

Ireland pleaded not guilty to the charge when brought into Probate Court Saturday. He was released on the same bond put up in the mayor's court in Jamestown where he had previously been arraigned, and bound over to the local court,

The charge grows out of an auto smashup four weeks ag in the business section of Jamestown, when Ireland's car is alleged to have smashed into a Buick coupe owned and driven by Mrs. Lena Martindale of James.

His car was badly smashed and the car in which Mrs. Martindale was riding was also badly damaged but the occupant escaped with only

The personnel of the jury drawn Monday: Brant Bell, Xenia; John Perry, Silvercreek Twp.; E. R. Latham, Silvercreek Twp; Karl Kellar, Xenia; Ida K. Finley, Xenia; James Cedarville Twp.; Edith Xenia; Julia Schweibold, Xenia; Earle Spahr, Xenia; Frank McCurran, Xenia.

EAGLES WILL OPEN WEEK OF FUN WITH HOME DEDICATION

The dedication of the new home of Xenia Aerie, Fraternal Order of Eagles, February 21, will also mark the opening of the Eagles' Fun Fest and Circus, which is scheduled for

Funds derived from the circus will be placed in the building fund. The committee in charge of arrangements for the week of fun is promising big surprises in the way of vaudeville and circus acts, high class performers having been booked to entertain Xenia crowds that week.

The committee was fortunate in booking some of the best tent show and footlight talent for the performances. In order to popularize the affair, two diamond rings and a radio set will be given away by the Aerie

The hall will be elaborately decorated and entertainment for old and young will be provided in the variety of amusements scheduled. The admission will be ten cents at the door. It will be the first formal occasion when the new home of the lodge will be thrown open to public inspection.

POLICE COURT

H. Moler, and Albert Whitlow of Dayton, and F. H. Schweibold, Xenia, arrested Sunday afternoon by Motorcycle Policeman Peter Shagin on charges of speeding were each fined \$5 and costs by Municipal Judge E. D. Smith.

Why A Woman's Age Shows In Her Hand

A noted beauty specialist recently said that she could invariably judge a woman's age by her hands. Worry and hard work often shows in the hands which it does not show in the face, and as a rule women give more attention to their face than to their hands. The hands however, should not be neglected because pretty, sort, white hands are really the true marks of refinement, and they should be cared for. Any woman can have beautiful, white, soft, pretty hands, regardless of the work she has to do, if she mill simply spend a minute or two just before retiring, rubbing a little plain Ice-Mint on them. In the morning she will be greatly surprised at the pleasant transformation that has been wrought by even a single application Ice-mint is made from a Japanese product that is simply marvelous for its beautifying properties whether used on the hands or face Begerallass product that is simply marvelous for its beautifying properties whether used on the hands or face, Regardless of what kind of work a woman does she should have pretty hands, As the hands, if neglected are bound to show the hard work and worry of, our lives. A few applications of loe-mint will actually make any woman proud of her hands and skin It costs little and is sold and recommended, by good druggists everywhere.

The Critical Period

Of A Woman's Life Is Helped With Dr. Bowen's Prescription For Hot Flashes

The period of a woman's life between 40 and 50 years is generally called the critical period

Laws of nature cause certain changes during this period which must not be interfered with. They are generally accompanied by discomforts such as Hot Flashes. Debility, Palpitation of the heart, and general nervous derangement.

These discomforts, need no longer be suffered. Dr. Bowen's Prescription has been used by one of the most successful practicing physicians of today for over 30 years with remarkable esults and on urgent appeals from his grateful patients he has now consented to place this boon within reach

of every suffering woman. It is guaranteed to control these symptoms and be abolutely harmless. At your druggist or send \$1.25 for trial package of Dr. Bowen's Pre-

Lagonda Laboratories Company. Springfield, Ohio

RHEUMATISM

Why use mere tempory surface rubs, liniments, etc., for pains, twinges and soreness of rheumatism, neuralfia, lumbago, sciatica, etc., when a famous old Dutch internal remedy, long known to physicians and now put up in easy-to-take. Lasteless capsulca goes direct to the internal cause in coints and muscles and removes it? You'll be istonished how quickly every misrcable, painful symptom vanishes. Ask for Red Mill Haarlem Oil. Costs only the and results postilively guaranteed or money back. Sold by Sayre and Hemphill and XENIA, OHIO
